# QueuePro 200/250

STYLISH & DURABLE

QueuePro stanchions offer the durability of steel construction and heavy duty cast iron bases, ideal for high traffic areas such as airports, large retail stores, stadiums and arenas. The 200 model's 2"/50mm diameter post gives slim graceful lines while the sleek look of the 250 model comes from having the belt cassette housed inside the 2.5"/64mm diameter post. The QueuePro 250 is also available in the Xtra version featuring a 50% wider belt making a more visible barrier and giving much greater impact to printed logos and messages.
